Objective

With **-6 years** of experience in product-oriented companies, I consistently deliver innovative solutions. I'm eager to learn and proficient in a diverse range of technologies, specializing in designing complex systems and solving intricate problems with elegant, efficient solutions.

Summary

- **6+ years of extensive experience in mobile app development**, specializing in **Flutter** with expertise in **UI/UX design, state management, and backend integration**.
- **Proficient in Flutter, Dart, Firebase, RESTful APIs, and third-party integrations**, ensuring seamless cross-platform performance.
- **Skilled in the Flutter BLoC design pattern**, effectively managing interactions between **UI and business logic** for scalable applications.
- **Hands-on experience with RESTful APIs, GraphQL (AppSync), and JSON-based data operations**, optimizing backend communication.
- **Involved in the complete software development lifecycle**, including **requirement analysis, UI/UX design, development, testing, and deployment**.
- **Actively participated in UAT (User Acceptance Testing) and post-go-live support**, ensuring a smooth user experience and resolving defects efficiently.
- **Collaborated with cross-functional teams**, contributing **ideas, design improvements, and performance optimizations** while ensuring project timelines are met.
- **Strong leadership, communication, and problem-solving skills**, with the ability to **lead teams or collaborate effectively in Agile environments**.

PROFESSIONALEXPERIENCE

Flutter Mobile Application Developer (Dart).

Clarion IT Tech Pvt Ltd

NMDC STEEL PLANT NAGARNAR — [2023-Till Date]

- **Spearheaded** mobile app development with **Flutter**, driving innovation and efficiency within an **Agile environment**.
- **Crafted dynamic and visually engaging UIs** using the **Flutter BLoC pattern**, ensuring seamless interaction between UI and business logic.
- Developed **RESTful APIs** and integrated **backend services** for data handling, using **JSON** and **XML** formats.
- **Engineered robust RESTful APIs** and seamlessly integrated backend services, optimizing **data handling with JSON and XML**.
- **Navigated the full app lifecycle**, from **conceptualization to deployment**, ensuring a polished and high-performing final product.
- **Supercharged user engagement** by implementing **push notifications** via **Firebase Messaging and Amazon SNS**.
- Collaborated with **cross-functional teams** to meet client requirements, providing feedback on system improvements.
- Actively participated in **sprint planning** and review meetings, ensuring on-time project deliveries.

Mobile Application Developer(Dart).

Rungta Collage R2 Bhilai — [2022-2023]

- Developed **cross-platform mobile applications** using **Flutter and React Native** for both **Android and iOS**, ensuring seamless performance across devices.
- Designed and implemented **intuitive, user-friendly UIs**, enhancing **navigation flow** and overall **user experience**.
- Integrated **Firebase services**, including **real-time database synchronization, push notifications, and secure authentication**, to improve app functionalityOptimized application performance, reducing load times and enhancing responsiveness.
- Optimized **app performance**, reducing **load times** and enhancing **responsiveness** through efficient state management and code optimization.

- Collaborated with **cross-functional teams**, gathering **requirements**, **troubleshooting issues**, and implementing improvements based on **user feedback**.
- Utilized **Git for version control**, adhering to **Agile methodologies** to ensure **efficient development**, **continuous integration**, and **timely updates**.

Flutter Developer (Dart)

Aimsoft Durg — [2021-2022]

- Spearheaded **Flutter mobile app development**, adhering to **Agile methodologies** to ensure efficient and iterative progress..
- Designed and implemented **complex, scalable UIs** using the **Flutter BLoC pattern**, ensuring a **clear separation of concerns** between UI and business logic.
- Developed and integrated **RESTful APIs**, handling **JSON/XML data formats** for seamless backend communication and data processing.
- Implemented secure **authentication** methods (OAuth, JWT) and followed **API security best practices**.
- Managed the **entire mobile app lifecycle**, including **requirement analysis**, **architecture design**, **development**, **deployment**, and **post-launch maintenance**.
- Implemented **push notifications** using **Firebase Cloud Messaging (FCM)** and **Amazon SNS**, enhancing user engagement and real-time communication.
- Collaborated closely with **cross-functional teams**, including designers, backend developers, and QA engineers, to meet client specifications and improve system functionality.
- Actively contributed to **sprint planning**, **code reviews**, and **Agile ceremonies**, ensuring timely project delivery and adherence to best practices.

Hitachi Vantara— [2019-2022]

Project#1

- Led **mobile app development** using **Flutter** following **agile methodology**.
- Designed and implemented complex **UIs** using **Flutter BLoC pattern**, maintaining a clear separation of **UI** and **business logic**.
- Developed **RESTful APIs** and integrated **backend services** for data handling, using **JSON** and **XML** formats.
- Oversaw complete **app lifecycle**: planning, development, deployment, and post-launch support.
- Integrated **push notifications** with **Firebase Messaging** and **Amazon SNS** to boost user engagement.
- Collaborated with **cross-functional teams** to meet client requirements, providing feedback on system improvements.
- Actively participated in **sprint planning** and review meetings, ensuring on-time project deliveries.

Mobile App Developer

Continuum Health Partner

Project#2

- Developed **mobile applications** for a hospital network, improving **patient and healthcare provider interaction**.
- Built apps using **Flutter** and integrated **RESTful APIs** for efficient **frontend-backend communication**.
- Focused on **app optimization** and implemented **data security** measures to handle sensitive healthcare data.
- Contributed to **team knowledge sharing** and ensured adherence to **coding standards**.

Full Stack Developer

Parker Drilling Company

Project#3

- Developed full-stack applications, including backend logic, APIs, and frontend UI using **Django** and **Flask**.
- Designed and built **RESTful APIs** to manage interactions between mobile apps and the server-side infrastructure.
- Managed data flow using **JSON/XML** and integrated cloud solutions for real-time data updates.
- Ensured high application performance, scalability, and security throughout the entire development lifecycle.
- Supported bug fixes and provided maintenance post-launch to improve system performance and user experience.

Technical skill

Mobile App Development	: Flutter, React Native
Web Application	: Dango, flask, CodeIgniter, PHP, ASP.
Languages	: Dart, SQL, PHP, Python
Database	: MySQL, SQLite, MongoDB
Web Services	: Restful API
Development Environments	: Android Studio, GIT, VSCode
Web Technologies	: HTML5, CSS3, JavaScript, jQuery, JSON, Python

EDUCATIONAL QUALIFICATION

- **BE in Computer Science Engineering** from Chhattisgarh Swami Vivekananda Technical University, Bilai:2011
- Intermediate from CGBSE Board, Raipur: 2005
- Matriculation from CGBSE Board, Raipur: 2003

Achievement

- Got team award
- Got a sparkle award for good performance Language
- Hindi
- English
